

Dr. P. Phillips Hospital, a part of Orlando Health, is a full-service medical and surgical facility serving the residents of Southwest Orange County. Our team of highly skilled physicians, nurses and support staff is equipped with state-of-the-art technology to provide cutting-edge treatments across a variety of medical disciplines.

The Emergency Department (ED) provides 24-hour emergency care and treats nearly 85,000 patients annually. The ED offers an accredited Chest Pain Program and designated Stroke Care Center for rapid diagnosis and treatment of chest pain, heart attack or stroke symptoms. Additional services include neurosurgery, vascular surgery, orthopedics and interventional cardiac care.

To meet the needs of our growing community, Dr. Phillips Hospital recently completed an expansion project that doubled the size of the facility. Enhanced features of the new tower include expanded diagnostic imaging, all private rooms, twice the number of operating rooms, a renovated cafeteria and easier access from the parking deck.
